Duration: 01.10.2016-

31.03.2018

“Ways to enhance active aging through Volunteering - WEActiveVol”

The main aim of the project is to strengthen the volunteering activity among the over 50 people. It will be accomplished by international cooperation of the staff of participating organizations, who will be exploring the theme of volunteering by exchanging ideas, knowledge, experience and good practices. The partnership at European level will enable to share good practices around Europe and to get familiar with new ideas and approaches on how volunteering could be more efficient

Amongst the over 50 people both for The community and the senior volunteers themselves.

The project activities

1. Transnational project meetings

During six transnational project meetings the staff from the partner organisations will explore the theme of volunteering (discussions, workshops, exchange of ideas, etc).

2. Preparing project's official website

The website will present the general information about the project and its aims, partnership group, and the developed results.

3. Opinion polls among the volunteers over the age of 50 and entities organizing the voluntary work

The two opinion polls will be conducted by each partner.

4. Events aimed at promoting active citizenship and volunteering of people aged over 50

The project partners will organize promotional events in their countries to develop and improve the awareness of volunteerism.

5. Cooperation with local experts

Each project partner will launch a cooperation with the local expert group to receive a feedback about the project results in their country.

6. Publishing brochure with good practices in the field of the over 50s volunteering

The partners will present the good practice examples to emphasize the positive aspects of volunteering.

For activities 3,4,5,6, volunteers aged over 50 as well as organisations supporting active aging and volunteering are very welcome to contact with the partner organisations.
